## LETTER OF TRANSMITTAL

UNITED STATES TARIFF COMMISSION,  
*Washington, June 18, 1929.*

HON. CARL R. CHINDBLOM,  
*House of Representatives, Washington, D. C.*

MY DEAR MR. CHINDBLOM: There is transmitted herewith a set of 16 tables showing by schedules and paragraphs a comparison of rates of duty under the tariff act of 1922 and the bill H. R. 2667. The summary table shows the totals by schedules, and the succeeding tables cover, respectively, Schedules 1 to 15, by paragraphs. The tables are arranged in the order of the pending House bill.

The tables show import statistics for the calendar year 1928; the calculated amount of duties under the existing law and under the rates provided in the House bill; and the equivalent ad valorem rates of duty under the existing and proposed tariffs.

Copies of these tables are being sent to each member of the Committee on Ways and Means and to each member of the Committee on Finance.

Transfers from the free list of the tariff act of 1922 and the dutiable list in the pending bill, and vice versa, have been taken into consideration in these tabulations. Therefore, the averages of imports and of ad valorem duties for each schedule as a whole, and for the particular paragraphs in which transfers have been made, will not agree with the published statistics for imports in 1928 under the tariff act of 1922. It was necessary to incorporate these transfers in order to have an accurate comparison of the two sets of tariff rates.

At the end of some schedules will be found statistics for certain products for which comparisons could not be made because of the differences in classification in the pending bill as compared with the tariff act of 1922.

Sincerely yours,

THOMAS O. MARVIN, *Chairman.*

## FOREWORD

Mr. CHINDBLOM. Mr. Speaker: In these tables, furnished by the United States Tariff Commission, I call special attention to the first summary, which shows, as to each of the 15 schedules of H. R. 2667, first, the amounts of the imports during the year 1928; secondly, the computed duties on those imports under the act of 1922 and under H. R. 2667, as it passed the House; and thirdly, the actual or computed equivalent ad valorem rates upon the same imports under the act of 1922, and H. R. 2667 as it passed the House. I have myself computed the rate of increase in each of the schedules of the actual or computed equivalent ad valorem rates under H. R. 2667, as it passed the House, over the same rates in the act of 1922, and find the rates of increase to be as follows:

<i>Rate of increase</i>		
Schedule.	Title.	Per cent
1. Chemicals, oils, and paints.....	9. Manufactures of cotton.....	8.24
2. Earths, earthenware, and glassware.....	10. Flax, hemp, jute, and manufactures of.....	3.49

These figures agree quite substantially with those submitted by the Tariff Commission in its tentative statement appearing in the RECORD for June 6 last, page 2546 (extension of remarks by Mr. BACHARACH).

\* Import data not segregated.

† Imports under par. 1700 are not included; data not available.

‡ Rates transferred to free list under H. R. 2667.

\* Rate on palmbrush bundles changed by presidential proclamation from 33½ per cent to 16½ per cent ad valorem effective Nov. 13, 1926.

\* Includes bentwood furniture for which H. R. 2667 provides a rate of 56 per cent ad valorem. As import data are not segregated to show the proportion of bentwood furniture included, duties to show the effect of H. R. 2667 have been computed on the basis of minimum increase 40 per cent ad valorem. This is the rate which will probably apply to the bulk of the imports.
